MEMORANDUM FOR THE RECORD

SUBJECT: Briefing of House Subcommittee on Energy Research
and Development [redacted]

1. On 18 February 1988, [redacted]
[redacted] from DI/OSWR briefed some Members and staffers of the
House Committee on Science, Space and Technology, Subcommittee
on Energy Research and Development. The topic of their brief
was Soviet Space Nuclear (Soviet Nuclear Reactors in Space).
The briefing was limited to those staff members who held
Secret or higher clearances. Three Members of the Committee
were also present. They were Rep. Stallings (D, IN), Rep.
Kochbrueckner (D, NY) and Rep. Kanjorske (D, PA). [redacted]

2. The briefing presented data on the two current Soviet
programs that have nuclear reactors associated with them. The
RORSAT is the older of the two programs and was discussed at
some length. There were no questions at the conclusion of the
brief. [redacted]
